Conv. with RDH 6/3/46, 11:30 am

1) RDH said Kin not an analyst, wants only PhDs for analysts. Said he'd like to use me as an A. and he'd let know if he could. asked for samples of my work, which I sent 6/14/46. They were returned 8/21/46 without comment.

2) Declaration of emphasis personnel - said flatly I wasn't an analyst despite CSC appraisal + ex. off rating.

3) Had been assigned Chem LA, which I was to design, compose, + daily, Labor 3/46. Continued to July. In July O, with rest of office, assigned to Nationalism project, as yet incomplete. Dr F.L. Ryan + O did economic parts, which, at time amalgamation, then were assigned to various branches, O was sent in Financial analysis Br + kept at work under Goldman on Nationalism. Atwood told me often not to give me any work + he did pt. Ho + O both reported AT to transferred, as RDH said I would be. During this time Dunn, in effect, an assist with in the division, my name even having been removed from the routing slip. Not to return until 4/47. During this period O got a very clear indication I'd get a bro eff rat. Went to see Merle + told him. Saw RDH on return + told him I got a com. mark. Ho said to continue on Nationalism as I no could have some value. Thereafter I was put on a different project + physically moved (rat) out of Atwood branch. RDH then told me I'd be more on my own under him, that he'd write the report because he was one of the few experts in the world on the subject. Gave me an

ourselves to follow, also had me membership in the Palange was of no significance. I told him I had seen in my life typed anything of course would prejudice the Palange. He then required me to submit all the basic materials which he had ordered from D/R in my name. Looking these, I consulted the divisional files. In this meeting I had told RDH I'd like to go over the division for material, to ensure I knew to be competent & cooperate. This permission was never ~~[illegible]~~ given, although requested it repeatedly.

As I began to examine the files material & got a number of requests into DCR for the data, which I had seen seen, I got concerned. & began to try to see RDH. I failed. (See note 12/10) However, RDH did not see me. I continued to try to see him & again bumped into him but this a little after 2 pm 12/20 in the lunch bar. (Memo 12/20) It was not until a little after 3 pm the last working day of the year, when most people were out of the office, that he called me in, gave me the DCR material saying he knew I'd not had chance to go over it, and asked me to keep it together, which I have done, to this day, despite the great burden this added to the work. Thereafter he saw me once. An early Feb. DMD said he was going to look after Wapat & he came in my office & prepared an outline which he submitted to RDH, who later changed it, making it immeasurably difficult to use intelligently. I was going on the DCR data. A short while later I got a large volume of

writing the memorandum

material which RE has had. At about that time D encountered RDH in the hall. He said we should be getting something out soon. D replied if he desired D could start Mon & that, since that RE material had just come in & David had had the chance to go over & get new data, he had only to go over the RE data. Thereafter DMD told me RDH better speed it up so D told him of the above RDH conversation & he assented. He said the Consumer, Capt. Bowes, was responsible for the report which surprised me since I was to have seen everything relating to the subject & had not seen that. He also said to do the eng., even tho the outline & the entire plan was to do the Hemisphere on a unit, & no report had been made to have a complete study in each country, which was a complete misunderstanding.

End Feb D went in to see DMD. RDH joined us. We discussed it & D will sign D planned to use his GM personnel, a general writer would be necessary in the principal job & advisors to make sense of the eng. survey & of the new data on just what the Falange was & other basic materials which D mentioned as an appendix. He obtained. Then DMD got sick. and D was sick weeks of 3/3 Harvey, on 3/18 D gave DMD the rough draft. So by D says it is 11 footnotes (memo to him)

Next O heard was some time after RDH went to Lt. He called me in.

ER dated 3/21, although that was day RDH left.

DMD hadn't read paper work yet, yet he said he was ready, RDH remarks. Read my RDH's marginal comments on the 12-15-90 he had read. These were viewed by me in some cases ridiculous. When O pressed DMD he read me a memo to him from RDH commending my presentation, containing critical comments along the lines of his marginal notes & adding O could have an ER of at most good, & anything less DMD saw fit. O asked DMD his opinion (he had not discussed it with me, as my memo had requested). He merely paraphrased RDH, adding that it was what he considered a "C" paper. O pointed out it was only intended to be a rough draft, that O had never been afforded to write it, that the outline had been prepared for the team, not just Ag, showed the erroneous inaccuracy of the specific criticisms, pointed out the complete lack of supervision or direction, the other handicaps of which he had personal knowledge. He conceded most of the criticisms would have been eliminated if there had been adequate supervision, containing the style sheet & rules, for the supervisor would have known RDH's tastes & O didn't, since this was the first & only

report he had assigned Schaal never been in a position to learn. On the face of the old DMD was safe to say was that it was a "C" people, & he again read his memorandum from RDH. O questioned the propriety of this, pointing out that RDH was here acting as reviewing officer as both. I only on the basis of a few pages, not a years work. DMD said he had no authority to consider anything else. He also said I should have "found" ones, & volunteered. When O took him up on this point he was unable to tell me when I should have volunteered. He, himself was one of those to whom I had, in fact, volunteered (memo of 10/7) also O & M, Penn.

He told me if he was in my place he would find he was wrong & that I should quit. O said I should be court martialed or a lawsuit

He said he [redacted], after thinking this over & checking on the points I returned to Courtney & told him of the apparent violations of regulations. However, on what he described as very short notice 4/20 he informed me he had submitted the EB as it was. He did agree to send me a copy of a memo to RDH. (memo of 4/25)

Note. How in his
Criticisms RD H opposed
what he had always insisted
on on 3/10.
Use quotes rather than
paraphrase as interpretation,
since RDH could count to
see them.
Details on raid by 7 of
FBI at Iowa
City & introduction
Falange as part of
Af quote, not just for party

DMD volunteered
for Fri. he had lead
he might be sent
me, since I lead in
fact, was sent
to Lenin.

Note that DMD
disagreed for RDH "good"
explanation RDH as to
how seen Rose, I did
not.
